NISHANT PATIL

+91 7972410013 | nishantspatil2004@gmail.com | linkedin.com/in/nishant-patil-3006ba249

PROFESSIONAL SUMMARY

Software Development Engineer with experience designing and developing full-stack web applications, backend services, and AI powered solutions. Skilled in React.js, Node.js, Python, REST API development, and cloud technologies (GCP). Proven ability to deliver production ready software, automate workflows, and build scalable integrations. Strong problem-solving skills with a focus on software quality and impact.

EDUCATION

B.Tech in Information Technology — *2022 – 2026*
Shah and Anchor Kutchhi Engineering College, Mumbai — CGPA: 9.5 / 10

HSC — P.O. Nahata College, Bhusawal — 73.17% | 2021–22

SSC — St. Aloysius Convent High School, Bhusawal — 88.40% | 2019–20

WORK EXPERIENCE

Software Development Engineer (Full-Time) | **Wohlig Transformations** - Feb 2026 – Present

- Architected and deployed an Employee ERP Portal for Jindal Steel on Google Cloud, enabling task assignment, daily updates, and knowledge base querying via an integrated Gemini Enterprise chatbot.
- Built two production Google ADK agents for JSL one for automated PPT generation and one for Minutes of Meeting extraction from Gmail and Google Drive, reducing manual documentation effort.
- Developed a Sprint-to-3DX sheet converter for Mahindra, automating migration of Excel sprint data into 3DEXPERIENCE compatible format, eliminating manual re-entry.
- Delivered a full-stack website for Absolute (insurance surveyor), including Tally software integration for financial data sync and end-to-end workflow automation.

SDE Intern | **Wohlig Transformations** - Jul 2025 – Jan 2026

- Built an AI-powered chatbot for Emeritus using LLM APIs and React.js front-end, improving student query resolution time.
- Developed a Document Management System for enterprise clients with role-based access, metadata tagging,& cloud storage integration.
- Shipped Quikclik an AI photo studio mobile app and web platform built with Flutter and React.js with realtime AI image generation.

PROJECTS

Speech-to-Text for Lecture Notes & Learning Analytics — *Python, Whisper , NLP, React.js*

- Engineered a real-time transcription system with NLP pipelines for keyword extraction and topic summarization.
- Built a learning analytics dashboard tracking student engagement metrics, comprehension patterns, and content coverage over time.

Smart Farming using Machine Learning — *Python, Scikit-learn, Random Forest*

- Implemented crop and fertilizer recommendation engine and yield prediction model achieving high accuracy using Random Forest and Decision Tree classifiers.

VaaniShop AI - Voice-Driven Website Generator — *Java, Spring Boot, React, PostgreSQL (JSONB)*

- Developed an AI-powered platform enabling shop owners to create and update business websites using voice commands, integrating speech-to-text and AI-based data structuring for dynamic website generation.

Face Recognition Attendance System — *Python, OpenCV, SQLite*

- Developed a real-time attendance system with liveness/anti-spoofing detection and SQLite-based automated logging for institutions.

Food Ordering System — *React.js, REST APIs, Node.js*

- Built a responsive food ordering platform with JWT authentication, real-time order tracking, and RESTful backend integration.

TECHNICAL SKILLS

Languages	Java, Python, JavaScript
Frontend	React.js, HTML/CSS
Backend & DB	Node.js, REST APIs, MySQL, MongoDB, MERN Stack
Cloud & AI	Google Cloud, Generative AI, Google ADK
Tools & Platforms	Git/GitHub, Docker
Core Concepts	Data Structures & Algorithms (DSA), Machine Learning, NLP

CERTIFICATIONS

- Google Professional Cloud Developer Certification
- IBM Academic Certifications — Enterprise Grade AI & Enterprise Data Science
- Infosys Springboard — Java, Python, and Data Structures
- Cisco Certification — Open EDG PCAP: Programming Essentials in Python, Data Analysis
